BRUCE DAVIS JOINS CPS SENIOR MANAGEMENT TEAM
Four Managers Receive New Positions Within Agency

Sacramento, CA— Bruce Davis, Ph.D. has been named to the CPS Management Team. Davis, an industrial/organizational psychologist, has managed the Test Rental and Test Development divisions for CPS since 1999. Davis and his team develop exams for licensure, certification and employment selection for public agencies. In addition, his division provides customizable tests for clients across the country on a variety of professions including law enforcement, fire service, customer service and maintenance.

With his added responsibilities, Davis will be an integral part of the organization's business strategic planning process, management and future endeavors.

"As CPS has grown and adapted to the needs of our clients, we have continually grown and modified our managerial and delivery structure," said Pam Stewart, Executive Director at CPS. In addition to this organizational shift, CPS has augmented its management team in other ways.

Brian Gegan has recently been hired as Chief Information Officer. His responsibilities include developing, implementing and managing CPS' web based technologies for both internal projects and client engagements. He will also oversee the operations and services of the Information Services Division to enable CPS consultants and staff to successfully apply existing and emerging technologies.

-more-

Due to rapid expansion and growth within the consulting unit, Mertianna Georgia has moved to assist in the management of the Local Government Services division which provides human resources consulting services to local governments.

With his extensive experience and knowledge of selection, Gilbert Johnson has moved into the management of the Test Administration division which provides comprehensive services such as online registration, exam information and professionally trained proctors.

“Each of these moves will take CPS to a new level of performance and continue our focus on providing exceptional client satisfaction and service,” added Stewart.

As a joint powers agency, CPS is helping to improve human resources in the public sector. CPS provide human resource management consulting, test development and test rental services to more than 1,500 state, local, federal government agencies, public and private utilities, associations and other organizations throughout the United States and Canada.
